

DURSBAN[®] 1% GRANULAR INSECTICIDE
FIRE ANT CONTROL GRANULES WITH 1% DURSBAN[®]

Manufacturer's Name & Address

Southern Agricultural Insecticides, Inc.
 PO Box 218, Palmetto, Fla. 33561

Phone: 1-941-722-3285
 Chemtrec: 1-800-424-9300I

NOMENCLATURE

Product Name: DURSBAN[®] 1% GRANULAR INSECTICIDE EPA Reg.No.62719-210-829
 Product Name: FIRE ANT CONTROL GRANULES WITH 1% DURSBAN[®] EPA Reg. No.62719-210-829
 Chemical Name: O,O-Diethyl O(3,5,6-trichloro-2-pyridinyl)phosphorothioate
 Synonyms: Accepted common name: Chlorpyrifos; Dursban[®], Lorsban[®]
 Chemical Family: Organophosphate insecticide

II INGREDIENTS

		ACGIH TLV	OSHA PEL
Chlorpyrifos	1.0% CAS No.2921-88-2	0.2 mg/M ³	0.2 mg/M ³ (Skin)
Ground Plant material	96.0% none PNOR		5 mg/M ³ Respirable 15 mg/M ³ Total dust

III PHYSICAL PROPERTIES

Boiling Point: N/A
 Vapor Pressure (mmHg): N/A
 Vapor Density: (air=1) N/A
 Reactivity in Water: Negligible
 Appearance/Odor: Light tan finely ground granules with hydrocarbon/pepper like odor.

Bulk Density: about 35 lbs/ft³
 Percent Volatile: (by volume) N/A
 Solubility In Water: (Chlorpyrifos)1.2 ppm

IV FIRE AND EXPLOSION DATA

Flash Point: 388°F(granules) Minimum explosive concentration 0.045 oz/ft³
 Material does not burn readily, under small fire conditions. Smoldering product may still produce toxic gases. If water is used, use soft stream foggers to minimize spread of contamination.
 Dust explosion is possible. Avoid dispersion of dust to reduce potential explosion hazard.
 Extinguishing Media: Water fog, foam, CO₂, Dry chemical
 Special Fire Fighting Procedures: Water fog to cool material. If fire encompasses large inventory of product, wear self contained breathing apparatus.
 Unusual Fire & Explosion Hazards: Toxic, irritating, flammable gasses may be formed. Avoid breathing smoke and fumes. Chlorpyrifos rapidly decomposes at 160°C to 200°C.

V FIRST AID

First Aid for EYE Exposure: Flush eyes a gentle stream of clean water for at least 15 minutes. Hold eye lids apart to ensure washing underside of lids. Remove contact lenses while rinsing. If irritation develops see a physician.
 First Aid for SKIN Exposure: Remove contaminated clothing and wash all exposed skin surfaces thoroughly with soap and water. If toxic symptoms or irritation develop get immediate medical attention.
 First Aid for INHALATION: Remove to fresh air and administer artificial respiration and/or oxygen if needed. Get immediate medical attention.
 First aid if SWALLOWED: Wash mouth out with water. Drink 1 or 2 glasses of water and induce vomiting by touching finger in back of throat. Contact physician immediately.
 SYMPTOMS of OVEREXPOSURE: Cholinergic effects, dizziness, nausea, abdominal cramps, pinpoint pupils. If symptoms persist see a physician.
 Note to Physician: Atropine, only by injection, is the preferable antidote.

VI REACTIVITY

Stability: Unstable at temperatures above 120°F.
 Conditions to Avoid: Do not allow to get wet in storage. Moisture may induce fermentation producing internal heating and decomposition of Chlorpyrifos.
 Materials to Avoid: Alkali media and strong acidic conditions.
 Hazardous Decomposition Products: High temperature decomposition of Chlorpyrifos produces volatile organic sulfides which are flammable, odorous and may be toxic.

VII SPILL OR LEAK PROTECTION

Steps To Be Taken If Spilled: Contain and sweep up spilled material. Keep dust to minimum during clean up.

Waste Disposal: Spilled product that can not be used according to labeled instruction must be disposed according to applicable local, State, and Federal procedures.

VIII SPECIAL PROTECTION

Respiratory: Type/Conditions. Avoid breathing dust. Under dusty conditions wear a NIOSH approved respirator with pesticide cartridge.

Ventilation: General, Handle with good ventilation. Handle to produce a minimum of dust.

Gloves: Neoprene gloves. Should be needed only for prolonged handling.

Eye Protection: Safety glasses with side shields.

Other protective Equipment: Clean, freshly laundered, body covering work clothing. Do not wear contaminated clothing.

IX SPECIAL PRECAUTIONS

Handling Precautions: Avoid breathing dust. Wash thoroughly after handling.

Storing Precautions: Store in cool dry place. Do not contaminate feed or food. Do not store where temperatures would exceed 120 °F. Do not place damaged or leaking containers in inventory.

Other Precautions: Do not contaminate any body of water.

KEEP OUT OF REACH OF CHILDREN OR DOMESTIC ANIMALS.

X TRANSPORTATION & SELECTED REGULATORY INFORMATION

Not regulated by US DOT for surface shipment in packages of 50 lb or under.

SARA 313 information none SARA 311/312 An immediate health hazard, A delayed health hazard.
